You Dream ... We Work!

Absolute Anxiety Free Dentistry

A sedation plan designed just for you (*and your dentist*).

Our beliefs and purpose:

1. We believe that every person deserves to have a pleasant dental experience - *every time*. One that is pain free, worry free and fear free.
2. We empower patients to maintain their oral health and not be held back by their anxiety.
3. We provide a solution that is not only smooth and efficient, but also comfortable and convenient - **and above all else tailored to the individual.**

49% of Australians Suffer from Dental Anxiety

What is IV Sedation?

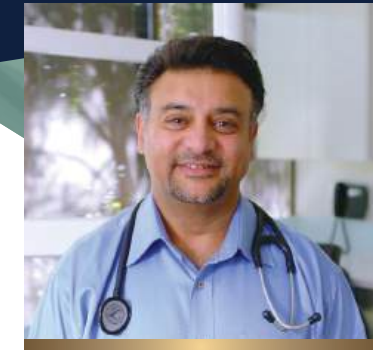

You've probably read or heard about Intravenous (IV) Sedation. It goes by many names - conscious sedation, twilight sedation, sedation dentistry or sleep dentistry - and is very popular with dental patients and dentists. IV Sedation is basically **a very efficient way of providing profound anxiety relief and pain control during dental procedures**. It is a modern, safe, and highly effective technique - making a patient's visit to the dentist a relaxing, comfortable and enjoyable experience.

IV Sedation utilises a combination of sedative and pain-relieving drugs to create a dream-like state that **allows a patient to relax throughout their procedure - and experience no pain**. Patients are blissfully unaware of their dental surroundings and what dental treatment is being performed - and best of all, have little or no recollection of the experience.

Why is IV Sedation so popular?

- ✓ Safe
- ✓ Comfortable
- ✓ Pain free
- ✓ Amnesic (no recollection of treatment)
- ✓ Smooth and rapid recovery
- ✓ Convenient
- ✓ Time efficient
- ✓ **Customisable for each patient**

We offer a highly experienced **bespoke** IV Sedation service to patients and their dentists all across Australia.

DR MINOO VELLANI

BDS (Sydney); GradDipClinDent (Conscious Sedation and Pain Control) (Sydney)

As a qualified and experienced dentist ... I understand firsthand the challenges dentists face with anxious patients, complex procedures and/or multi-session treatments.

As a sedationist ... I bridge the gap between a patient and their dentist - providing a stress free experience for patients, and the perfect working environment for dentists.

I take great pride in tailoring a sedation plan to suit each individual patient - and their dentist.
